

000224

Master Key

### Overview

---

The key used for opening GE Security's Automotive key boxes is a patented, unique Title key. Every customer has his own unique Title code.

The Title key can hold a sequence number to uniquely assign the key holder.

The controlled ordering procedure for these keys guarantees that a unique code is created for every new order.

### Standard Features

---

- GE Patented Title key
- Uniquely customized for every customer
- Optional sequence code to assign to every key holder
