

Get your keys organised

AccessPoint™ Key Organiser

This modern key organiser allows you to keep all your keys in one centralised spot. There are three 'grab and go' buckets on the front for frequently used keys to mobiles and wallets. Press the button on the side and you'll find a handy tray and 12 removable key tags for the keys you use less often. This stylish key organiser is designed for wall mounting and its elegant appearance makes it ideal for home as well as business applications.

AccessPoint™ Locking Key Cabinet / Key Cabinet

The AccessPoint™ Locking Key Cabinet and Key Cabinet share the same smooth modern design and multiple-key storage system with a simple push button mechanism for opening. This is a perfect solution for small offices. The Key Cabinet has ten pegs for 'grab and go' keys and another seven pegs for less frequently used keys, as well as a key tray on the back of the small inner door.

AccessPoint™ Key Strip

A compact and stylish way to hold up to ten sets of keys. The keys simply slot into the strip, which has a fashionable wave shape.

AccessPoint™ Key Cabinet Pro TouchPoint™ / Key Cabinet Pro

The Key Cabinet Pro TouchPoint is a rugged 16-gauge steel cabinet with space to organise and secure 30, 60 or 120 keys. The keys can be hung separately on hooks or multiple keys can be hung on the key tags provided. The contents are protected by a tough and foolproof patented TouchPoint Push button lock that has proven its reliability and efficiency with the GE Security KeySafe range of products. The door has a clutch mechanism to prevent forced entry. The standard Key Cabinet has the same features, except it has a standard keyed cam lock.

Stor-A-Key™

Stor-A-Key can be used for inexpensive storage of emergency/hidden keys for vehicles or houses. It is a simple, affordable key case for hiding keys that attaches to almost any clean surface using powerful magnet or adhesive tape.

Locking Stor-A-Key™

Locking Stor-A-Key can be used for storage of spare/hidden keys of cars, office files,.... It is an affordable key case with a settable combination lock with a total of 1,000 possible combinations and powerful magnet or adhesive tape. The foam insert prevents the key from falling out. The design allows a simple one hand operation.

Portable Stor-A-Key™

The inexpensive, versatile Portable Stor-A-Key has a settable combination lock with a total of 1,000 possible combinations and an adjustable cable for mounting around fence, car, bike, boat, etc.. It has an easy one-hand operation. The foam insert can be removed to hold keys, coins and more. Available in three attractive colors for home, sports, recreation and kids.
